

OPPOSE SUNDAY MOVIE SHOW

Petition Circulated in Dothan
Sunday Schools is Liberally
Signed.—Want Sabbath
Observed.

Requesting that a law be enacted to prohibit the operation of moving picture theatres on Sunday, a petition was circulated in some of the Sunday Schools here yesterday, and was liberally signed.

It is understood that similar petitions have been circulated throughout Alabama, and that these petitions along with such information as may be necessary, will be presented before the legislature at its next session.

The operation of moving picture shows on Sunday in some of the cities of Alabama, has brought about strenuous opposition over the state, and a strong effort will no doubt be made to prevent the operation of such places of amusement on the Sabbath.

GENERAL VILLA REPORTS DEFEAT OF OREGON

Washington, May 2.—Administration officials are awaiting with interest the return to Washington of Duval West, President Wilson's personal representative in Mexico, who sailed from Vera Cruz.

Mr. West has had personal interviews with Generals Carranza, Villa and Zapata and many of their supporters, and administration officials are keenly interested in his forthcoming report.

The Villa agency here received a dispatch from Chihuahua reporting a battle said to have occurred yesterday between Villa forces and those of General Obregon between Silao and Irapuato. The message was from Villa's foreign minister, and was as follows, as given out by the agency:

"I have just had a conference by wire with Medina Obitia, General Villa's chief of staff, who reports that in a fight yesterday at San Cristobal and La Saneada the enemy was repulsed and driven back 10 miles from the last named place with slight losses to us, though we cannot as yet give the precise number. In the center and on the left there was no fighting.

"The task of gathering the dead and wounded continues, as we had to dispose of more than 500 of the enemy's dead. Medina Obitia adds that he does not need more ammunition, as he captured more from the enemy than he expended. He also states that several officers from General Obregon's command have just arrived at Leon, bringing word that the enemy has been driven back and machine

COTTON DROPS 20 POINTS

The cotton market has been taking a downward turn during the past few days. May cotton dropped 20 points today, and during the past few days has dropped 65 points. Only a week or so ago cotton was up to 10.37, and is now back down to 9.72.

Wilkins and Fenner, of New Orleans, wired the following to a local buyer today: "Selling on improved weather conditions poor. Liverpool cables liquidation continues."

Moderate Decline in Cotton Market

New Orleans, May 2.—Cotton last week fell off for a moderate decline under selling, which appeared to be about evenly divided between the two accounts. Selling pressure was not heavy, however; long liquidated moderately under the growing conviction of only a moderate decrease in acreage, while bears were cautious short sellers on the acreage and what they considered to be favorable weather conditions. At the lowest prices were 21 to 31 points under the last quotations of last week. The close was at net loss of 29 to 31 points.

It was mainly a weather market. The sustaining influences were the reports from Texas showing much crop damage in the overflooded sections, and continued complaint of drought in the central and eastern portion of the belt. On the whole, the trade considered the conditions over the belt to be more favorable than otherwise, hence the downward trend of prices.

This week war news may be of more or less influence, and the trade may watch Liverpool closely because of what appears to be growing pessimism in that market, but neither side will be able to get very far away from crop and weather conditions in the south. May is regarded as a critical month, since its weather is most important to the start of the crop. As the situation over the belt now stands light showers at frequent intervals, with fairly high temperatures, would be ideal. Continued drought would cause much complaint because seed would not germinate, but, on the other hand, too much rain would cause foul crops, would prevent cultivation and would tend to reduce the acreage through abandonment of fields. Light showers would work for lower prices, while heavy rains would result in big upturns.

GERMAN TORPEDO STRANDED ON THE DUTCH COAST

GERMAN TORPEDO STRANDED ON DUTCH COAST.

A German torpedo, fired but never discharged, and stranded on the Dutch coast is shown in the picture. A soldier of the Netherlands, one of the beach patrols on guard ever since the war started, is waiting, guarding the explosive until a detachment from the engineers corps arrives and decide what to do with it.

Sometimes the bombs and torpedoes are shot at, and exploded by rifle fire. Or else they are carefully taken apart. The torpedo shown in the photograph evidently was fired at a merchantman by a German submarine. It did not strike, and therefore never was exploded.

TWO GERMAN WARSHIPS SUNK IN A NORTH SEA BATTLE; ONE BRITISH WARSHIP ALSO SUNK

London, May 2.—The British admiralty announced tonight that two German torpedo boats had been sunk in the North Sea. The British torpedo boat destroyer Recruit also was sunk.

The text of the statement follows:

"A series of small affairs took place in the neighborhood of the Guller and North Hinder lightships Saturday. During the forenoon, M. M. destroyer Recruit was sunk by a submarine, four officers and twenty-one men being saved by the trawler Daisy.

At 3 p. m. the trawler Columbia was attacked by two German torpedo boats, who approached her from the westward and commenced action without hoisting their colors. The Columbia was sunk by a torpedo, only one deck hand being saved by the other trawlers.

"A division of British destroyers, comprising the Laforey, Leonidas, Lawford and Lark, chased the two German vessels and, after a brief running fight of about one hour, sank them both.

"The British destroyers sustained no casualties. Two German officers and forty-four men were rescued from the sea and made prisoners of war."

German Officers Picked Up.

AMERICAN TANKER SUNK BY TORPEDO; OTHER SHIPS LOST

London, May 2.—The American oil tank steamer Gullflight, which sailed from Port Arthur, Tex., April 10 for Rouen, France, was torpedoed at noon Saturday off the Schilly Islands, according to a Central News dispatch today.

The captain of the Gullflight, according to the same advices, died of heart failure as a result of the shock. Two seamen jumped overboard and were drowned. Two other members of the crew were taken off by a patrol boat. The vessel was towed in to Crow sound and beached.

President Is Given News.

New Haven, Conn., May 2.—News of the torpedoing of the American steamer Gullflight off the Schilly Islands Saturday was communicated to President Wilson tonight on his special car, en route from Williamstown, Mass., to Washington. He declined to comment.

GRAND JURY TO TAKE UP CASE OF BANKER OLIVER

Americus, Ga., May 2.—Solicitor General J. R. Williams stated this morning that further inquiry into the assassination of A. D. Oliver, the "showstrung" banker, would be instituted Monday next when the grand jury of Lee county is convened for the May session.

Judge Z. A. Littlejohn will preside at Lee court next week, and it goes without saying that he will be guest of the grand jury a thorough investigation of the bloody affair at Leesburg some two months ago when A. D. Oliver was shot to death upon the streets of that town.

An investigation made by the coroner at the time resulted in numerous arrests, but the parties thus suspected were subsequently discharged for lack of evidence connecting any of them with the murder.

Governor Slaton has offered a reward of \$500 for apprehension of the guilty parties, and there is no doubt a very thorough investigation will follow next week at the hands of the grand jury of that county.

Public Health Meet in Dothan Tuesday

A public health meeting, under auspices of the county medical society, will be held tomorrow afternoon at 2:30 o'clock in the Knights of Pythias Hall, over Nix's drug store, North Foster street. All are invited to attend.

Matters relative to health of the community will be discussed and it is believed the meeting will be of great benefit to the community.

EDUCATION FUND MATTHEWS

Carnegie Hero Fund Commission
Appropriation Sum set to Be
\$2,000 for This Year
for Purpose.

For heroism in rescuing Ben Grant from suffocation in a well three years ago, Henry Matthews, of 407 West Adams street, will have an opportunity of receiving a college education, a sum of money not to exceed \$2,000 having been appropriated for this purpose by the Carnegie Hero Fund Commission.

Besides the sum of money for his education, young Matthews will receive a bronze medal for his act of bravery. He has received notification to this effect. The following letter has been forwarded by the Commission to the young Dothan hero:

"Through the courtesy of Messrs. L. G. Bigger, of West Palm Beach, Fla., and W. T. Hall, of care of The Dothan Eagle, Dothan, the attention of the Carnegie Hero Fund Commission has been called to an act performed by you, by which, on March 2, 1912, you saved Benjamin Grant, Jr., from death by suffocation in a well, at Dothan, Ala. Your case, after a thorough investigation, was considered at a meeting of the Commission held this afternoon, and I have much pleasure in informing you that recognition of your heroic act, that occasion the Commission awarded you a bronze medal, a sum not to exceed \$2,000 for educational purposes, payment to be made as needed and approved, from time to time, provided you take advantage of the feature of the award within ten years from this date.

I shall be obliged if you will kindly advise me without delay by letter bearing your own signature, whether or not you wish to accept the Commission's award. If your reply is affirmative, the medal will be ordered, and will be delivered to you as soon as it has been received from the manufacturer, and the money will be held until such time as it is needed, but no payments will be made until you have submitted plans for your education, which they have first been approved by us.

Yours very truly,

Matthews

Effect of the Barnes-Roosevelt Trial.

Savannah News.

It is agreed that the outcome of the Barnes-Roosevelt trial will have a political effect of very great importance, especially if Col. Roosevelt should win. If he should lose it is certain that much of his following would fall away from him. He would be classed along with the political bosses that he has been warring on and condemning for the last three or four years. There are reasons for thinking that he hoped to get back into the Republican party and be chosen to lead it in the next presidential contest, or at least name its presidential nominee. He has been attacking the Wilson policies in magazine articles and in speeches and in every other possible way making his hostility to the Wilson administration evident.

It may be that he simply finds the administration's policies objectionable but that doesn't afford a satisfactory explanation of his continuous attacks upon them. The belief is justifiable that he aimed to become prominent as an opponent of them and of the Wilson administration and thus bring about his re-instatement in the Republican party. He felt that if reinstated he could make a prominent place in the party for himself.

He is too good a politician to fail to see that nothing could be hoped for from the Progressive party. If it should nominate a presidential ticket it would simply divide the Republican vote, thus leaving the way open for the Democratic party to win.

But has the suit brought by Mr. Barnes made this programme impossible? May it not be that Mr. Barnes brought his suit more for the purpose of keeping Col. Roosevelt out of the Republican party than for any other? It is doubtful if he expected to get damages from Col. Roosevelt. It may be that the most he expected was a mistrial, but he has managed to get before the country a great deal of testimony that shows that Col. Roosevelt was in close touch with the party bosses when he was governor of New York and when he was President. Undoubtedly this testimony has shown him of much of his popularity and has hindered his getting back into the Republican party, no matter how the trial for libel turns out.

Assuming that Col. Roosevelt wants to get back into the Republican party and dominate it the effect of the libel suit will likely be to handicap his efforts in that direction. Even if the judgment of the jury should be in his favor it wouldn't put him back in the position he had in the esteem of millions of people before that suit was begun. He will prove himself to be a most remarkable man if he manages to triumph over his political enemies and retains a large part of his following.

That Oklahoma man who lost his job as postmaster and started postoffice of his own, which is to be giving good service and satisfaction, ought to be encouraged. No matter what his duties, it is a pity to lose that sort of man from the public service.—Fayetteville Progress.

It occurred to me some time ago that Dr. Oster would admit his job could be abolished, provided he was given the job. Dothan has no faithfully

TO OUR SUBSCRIBERS.
We want to appeal to you to do your trading from those merchants who bid for your trade thru the columns of the paper. If you will do this, we guarantee you just as cheap or cheaper goods. You never see any old shelf worn goods on the shelves of merchants who advertise. If a business house wants your trade, he should not be too stingy to spend a little money with the paper, to reach you. You take the paper for the benefit it is to you, and you can make it worth a great deal to you if you will buy at home, and from

the merchants who want your trade. A business too close slated to tell you about the good he has for sale is too close slated to treat you right, if he gets a chance, so don't you take the chance. Trade with those who ask for your business and who help sustain the public institutions of your town. A person so narrow minded to doubt the value of advertising is narrow enough to doubt the value of honesty, and honest goods. Your Paint—and Your Painter's Paint

If you employ a modern progressive painter, you will find that he is just as much interested in economy in the use of paint, and in the beauty and wearing quality of the paint after it is applied, as you are. For the houses he has painted that show paint-quality as well as painter-workmanship are his best advertisements. The modern painter has neither time nor desire to mix his own paints. He will quickly agree with you that

Lowe Brothers "High Standard" Paint Gives Best Results

—because it contains just the materials required for perfect paint efficiency, mixed and ground by powerful, perfectly adjusted machinery, until there is a perfect union of solids and liquids—more particles to the gallon than any other paint. This means greatest covering power, spreading capacity, beauty, wearing quality, economy. "HIGH STANDARD" PAINT is sealed in air-tight cans—always fresh and good. The Lowe Brothers line supplies every paint and varnish need.

INTERNATIONAL HARVESTER MACHINES

Our Aim is to Explain International Harvester Engines

ALL the features of a good engine cannot be learned in a day. Yet every man who buys an engine should know all those features and should be able to make comparisons with any engine offered him.

There are certain features of design, material, machining and construction necessary to produce best results. These results are what you are interested in, because they mean economy and the ability to do your work.

The design is important. Of two engines with the same weight, same bore and stroke, running at the same speed, one will develop anywhere up to 50 per cent more horse power than the other, and may last twice as long, simply because of difference in design.

International Harvester engines all have these features. The first time you are in town, drop in and we will show you some of the reasons why I H C engines develop so much power and last so long.

KIDNEYS ACT

EAD TAKE SALTS

Backache is Sign You Have Been Eating Too Much Meat

When you wake up with back and dull misery in the loins, it is a sure sign that your kidneys have been eating too much meat, says a well known doctor.

Men's kidneys are of which the kidneys in their effort to filter it from the blood, they become sort of purifiers and loggers. When you feel a get sluggish and slow, you are really like you are to your bowels, removing of body's various waste, else you get backache, sick, headache, spells, your stomach sour, and when the kidneys are clogged and when the filter is bad you have then the twinges. The urine is sticky, full of sediment, clumps, and get sore, water scalds and are obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from a pharmacist about four ounces of Kid Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act.

This famous salts is made of the acid of grapes and lemon juice, combined with lithia.

It has been used for generations to clean and stimulate sluggish kidneys, and to neutralize in the urine so it no longer irritates, thus ending bladder troubles.

Kid Salts is a life saver for renal sufferers. It is inexpensive, cannot injure and makes a beautiful, effervescent lithia-water.

Dr. Levine, who has been at Dothan, Fla., for some time, says for a few days visit.

Dothan 4, Waycross 2, (second game).

BY WAY OF COMMENT

The surprise of Saturday's games was the twirling of Glenn Mosley, who gave up only four hits and struck out 10 men. Up until the eighth Mosley held Waycross to one hit. Hall, who pitched the first game, also was effective, allowing only 6 hits. The hits Dothan got were too numerous to mention, everybody playing jam up ball, and using the stick like old timers.

A large number of fans are planning to go to Thomasville tomorrow for the ball game. They will motor through the country, probably, returning to Dothan Tuesday night.

No doubt that Waycross pitcher, for more reasons than one, regretted hitting Shortstop Burruss on the head, for the next time up the Georgia youngster lifted a nice one over the fence.

Ben Paschal, that Enterprise boy, has found his stride and is knocking more three base hits these days than the law allows.

Frank Blackwell is showing much of his old time form.

Mother's Day—

The Heslin Resolution, designating the second Sunday in May as Mother's Day, was passed by Congress, and approved by the President May 8, 1914, and reads as follows:

"Whereas the service rendered by the United States by the American mother is the greatest source of the country's strength and inspiration; and

"Whereas we honor ourselves and the mothers of America when we do anything to give emphasis to the home as the fountain head of the State; and

"Whereas the American mother is doing so much for the home, the moral uplift, and religion, and peace so much for good government and humanity; therefore be it enacted, that the President of the United States do hereby

authorize and request to issue a proclamation calling upon the government officials to display the United States flag on all government buildings, and the people of the United States to display the flag at their homes or other suitable places on the second Sunday in May as a public expression of our love and reverence for the mothers of our country; and, be it further

Resolved, That the second Sunday in May shall hereafter be designated and known as mothers day, and it shall be the duty of the President to require its observance as provided for in this resolution."

Under the authority granted by the Heslin resolution, the President issued the following proclamation:

"Whereas, by a joint resolution approved May 8, 1914, designating the second Sunday in May as Mother's Day, and for other purposes, the President is authorized and requested to issue a proclamation calling upon the government officials to display the United States flag on all government buildings, and the people of the United States to display the flag at their homes or other suitable places on the second Sunday in May as a public expression of our love and reverence for the mothers of our country.

"And whereas, by the said joint resolution it is made the duty of the President to request the observance of the second Sunday in May as provided for in the said joint resolution:

"Now, therefore, I, Woodrow Wilson, President of the United States of America, by virtue of the authority vested in me by the said joint resolution, do hereby direct the government officials to display the United States flag on all government buildings, and do invite the people of the United States to display the flag at their homes or other suitable places on the second Sunday in May as a public expression of our love and reverence for the mothers of our country.

"In witness whereof I have set my hand and caused the seal of the United States to be hereunto affixed.

"Done at the city of Washington this 9th day of May, in the year of our Lord one thousand nine hundred and fourteen, and of the Independence of the United States the sixtieth."

Resolved, That the President of the United States do hereby

Miss Louise Liddon
Honored.

Mrs. J. B. Moore was the charming hostess on Saturday afternoon, when Miss Louise Liddon, of Marianna, was the inspiration for a lovely bridge party.

The pretty home was effectively decorated in ferns, sweet peas, geraniums and snap dragons. The tables were conveniently placed in the living room where several exciting rubbers were enjoyed, resulting in Mrs. J. O. Stallings winning the prize, a hand-embroidered apron while the guest of honor was presented with a beautiful corsage bouquet of sweet peas and lilies of the valley.

Late in the afternoon a refreshing ice course was served to Mrs. Hugh Smith, Mrs. Oscar Stallings, Mrs. Fred Hollis, Miss Ruth Stapleton, Miss Louise Liddon, Miss Nettie Leslie and Miss Sue Stapleton.

Interest and enthusiasm are increasing as the time draws near for the meeting of the Federated Clubs of the Sixth District which convenes here Tuesday and Wednesday.

Hostesses are requested to notify their delegates to be at Foster Street Methodist church between two and three o'clock to report to the credentials committee.

At the close of meeting Tuesday afternoon at 5:30 o'clock, the delegates will be taken for an automobile ride until 6:30.

The public is cordially invited to the meetings of Tuesday and Wednesday.

WOMAN CHAUFFEUR ON ENGLISH MOTOR TRUCK

WOMAN CHAUFFEUR IN ENGLAND.

Photo by I.N.S.

Women are being employed to replace men who have enlisted in London, even as in Germany and in France. The photograph shows a woman chauffeur, not of a pleasure vehicle, but of a motor truck. Her husband enlisted, and she applied for his job. Being without other means of support, the concern hiring him, turned his post over to her at the same wages. This is true of hundreds of cases in England today. Outsiders applying for positions made vacant by enlistments are not getting the work. It is going to wives, sons and daughters of the men who have gone to the front.

GERMANS TO BE KILLED IF LONSDALE IS SHOT

Ottawa, Ont., May 2.—Minister of Militia Hughes announced that if German authorities carry out their sentence of death upon Private Lonsdale, of Leeds, for having struck a German officer in a German prison camp, there will be reprisals in Canada.

General Hughes stated as representative in congress from Maine, that he learned that the Germans had executed Lonsdale, he later an operation. Mr. Littlefield, who was born in 1851. He was a re-

BOY GOES TO EXPOSITION BY PARCEL POST ROUTE

San Diego, May 2.—Uncle Sam's parcel post is now accused of competing with Dr. Storke since the arrival in San Diego of Samuel Abraham Randolph, aged eight years, by parcel post.

It all came about in this way. Samuel lives in Salt Lake City and desired to see the San Diego exposition. His parents were unable to make the trip so they decided to send Samuel by parcel post to his grandmother, Mrs.

Temperance

(Conducted by the National Woman's Christian Temperance Union.)

DESIRE OF WHISKY VICTIM.

Some years ago in a village of western New York on election morning the recognized village toper went to the polls. He asked for a temperance ballot, and a liquor seller got him one, supposing a joke was at hand. Polding it as best he could with trembling hands, the bleary-eyed, bloated-faced, ragged, unkempt man went to the ballot box and registered his wish. Then they began to scoff and sneer at the drunkard who had cast a temperance vote. "A pretty temperance voter you are," said one. "Why, if there was a bottle of whisky yonder there at the top of that liberty pole, and if you could have the whisky by climbing the pole at the risk of your life, you know you'd climb." And then the drunkard straightened himself up as best he might and answered them. "Know it!" he said, with trembling, painful emphasis. "Know it! Oh, yes, I know it. And I know another thing, gentlemen—if the whisky wasn't there I wouldn't climb."

TRIED AND CONVICTED.

It is one of the most cheering signs of the times that the cause of temperance is steadily gaining champions in the United States congress. This from Representative Clyde Kelly of Pennsylvania: "The American saloon has already been tried and convicted in one-half the territory of the United States, and in the remaining territory where it still waves the Stars and Stripes it will soon be seeing the stars and wearing the stripes. Facing the facts and knowing the meaning of the struggle, the liquor interests are forming a battle line of gigantic strength. We accept its mighty challenge, for we know that with this giant wrong overthrown many others which have marred and scarred humanity for generations will go crashing down in one great heap of wreck and rubbish. And crediting that, we do not ask how many the enemies are, we only ask where the enemies are."

NO FINANCIAL PANIC.

The American Machinist recently published a chart showing the number of workers (wage-earners, proprietors and executives) engaged in twelve of the manufacturing industries of this country. The following are the figures:

Foundry and machine shop prod.	1,117,417
Textile mill and textile products	84,093
Printing and publishing	83,440
Cotton goods	80,771
Men's clothing	51,437
Iron and steel	50,162
Food and kindred products	46,923
Women's clothing	37,021
Meat products	18,716
Soft liquors	16,722
Distilled liquors	8,528

If all the breweries and distilleries were to close their plants tomorrow there would be no panic in the business world, only a little readjustment.

HER LITTLE LECTURE.

A young man, in company with several other gentlemen, called upon a young lady. Her father was present to assist in entertaining the guests, and offered wine, but the young lady asked, "Did you call upon me or upon papa?" Gallantry, if nothing else, compelled them to answer, "We called on you." "Then you will please not drink wine. I have lemonade for my visitors." The wine glasses were set down, with their contents untasted. After leaving the house one of the party exclaimed, "That was the most effectual temperance lecture I ever heard."

POLICEMEN AGAINST SALOONS.

"How many of you would like to see all the saloons closed?" asked Catch-319-Pat Patterson of 290 policemen who had gathered at the mounted police headquarters in Chicago to hear him speak. All but about twenty-five men stood up.

Capt. Charles Healey, who introduced Mr. Patterson, took occasion to say that no man who drank could remain on the mounted police force.

CHEERING NEWS FROM TEXAS.

The farmers of Texas are organizing to "oppose the liquor traffic and to assist in all proper ways in driving liquor out of the state." Since farmers are a potent factor in the making of "dry" states, this is a cheering sign of the times for the Lone Star State.

COLORADO BANKS GAIN.

During the six weeks immediately following the adoption of state-wide prohibition the state banks of Colorado made a gain in resources of \$1,575,629.88. The real estate dealers say that saloonkeepers and bartenders are buying houses and truck farms.

tags. One tag contained the address of his grandmother and fifty cents in parcel post stamps. The other tag was marked: "Fragile. Handle With Care."

The boy's grandmother was at the station to claim her "mail," eliminating the necessity of Samuel being tossed about in the local postoffice as ordinary parcel post matter.

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt.—"We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me."—Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine. It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.
